

First Day 25 August (Allame Shahidi Amfiteater)		
Title	Presenter	Time
	Opening Ceremony	8:30 - 10
	Break, Exhibition	10 - 11
Workshop BET 11:30 – 13 Hall B (Samet Hall) (Atefeh Abbasi)	Plenary	Chair of Section: Bahram Ghanbari Mohammad Hossein Fekri
Resolving Structural Challenges in Porous Materials through Advanced X-ray Diffraction Analysis	Mojgan Zendehtdel	11 - 11:30
30 years of experiments and calculations of self-diffusivity of benzene in silicalite zeolite	German Sastre Navarro	11:30 - 11:50
Unraveling Cu Speciation Dynamics and Framework Stability in High-Si LTA Zeolites via in situ X-ray Absorption Spectroscopy	Gloria Berlier	11:50 - 12:10
Characterization of Active Sites in porous materials: From Fundamental Concepts to Methodological Challenges	Mesbah	12:10 – 12:35
	Lunch and pray	13-14:30
	Panel	Chair of Section: Masoumeh Khatamian Mojgan Zendehtdel
Synthesis of Cobalt-Zeolite Catalysts for Carbon monoxide Hydrogenation to Valuable Products	Yahya Zamani	14:30 – 14:50
Tandem Hydrogenation of CO ₂ to Methanol and Hydrocarbons over Zeolite-Supported Framework Catalysts	Zahra Taheri	14:50 – 15:10
Seed-Assisted Hydrothermal Synthesis of Hierarchical Cu- ZSM-5 Catalysts for Enhanced Selective Catalytic Reduction of NO _x with NH ₃	Marzieh Hamidzadeh	15:10 - 15:30
	Continue the panel with all members 5 people	15:30 - 16
	Break, Poster, Exhibition	16 – 17
	Hybrid Material	Chair of Section: Tahreh Sedaghat Sadegh Rostamnia
Chemically-modified Porous Materials as Heterogeneous Catalysts for CO ₂ /epoxide Cycloaddition	Majid Masteri-Farahani	17 - 17:25
Magnetic Porous Materials as Theranostic Contrast Agents	Baharak Divband	17:25 - 17:45
Synthesis of Inorganic-organic Hybrid Materials and Investigation of their Catalytic Properties	Ali Ramezani	17:45 - 18:10
	Visiting city and Ceremony Dinner	

Second Day 26 August (Allame Shahidi Amfiteater)		
Title	Presenter	Time
	MOF Zeolite	Chair of Section: Aliakbar Tarlani Majid Masteri-Farahani
Bio-MOFs: Sustainable Porous Frameworks for pH-Responsive Drug Delivery and Biomedical Innovation	Hossein Kazemian	8 – 8:30
Metal-Organic Frameworks (MOFs): A Bridge from Waste to Added Value in the Circular Economy	Mohammad Yaser Masoomi	8:30 – 8:55
Building Better Photocatalysts through MOF Nanocomposite Engineering	Vahid Safari fard	8:55 – 9:20
Multifunctional Magnetic [B]ZMS-5 Based Composite for Removing Nitrate, Organic Pollutants, and Heavy Metals from Water	Masoumeh Khatamian	9:20 – 9:45
Introduction and application of ZSM-5 type Zeolite catalysts in petrochemical processes for manufacturing light olefin building blocks	Mehdi Jalali	9:45 – 10:10
Economical and Environmently Friendly Systems as Effective Adsorbent for Removing Sulfur Pollution	Maryam Moosavifar	10:10 – 10:35
	Break, Poster, Exhibition	10:35 – 11:35
	COF &biochar	Chair of Section: Mahdieh Chegeni Seyyed Mehdi Khoshfetrat
Crystalline Covalent Organic Frameworks (COFs) Synthesize and Applications	Sadegh Rostamnia	11:35 – 12
Covalent Organic Frameworks Hybrid Nanocomposites as porous materials: Preparation, Application, and opportunities	Mohammad Ali Bodaghifar	12– 12:25
Engineering Biochar:from biomass wastes to advanced industrial and environmental applications	Federica Menegazzo	12:25 – 12:50
	Lunch and pray	13 – 14:30
XRD Workshop (14:30-16) Hall B (Samet Hall) (Seyyed Abolghasem Kahani)	Pannel experience in industry	Chair of Section: Somayeh Taghavi Seyyed Mohammad Hosseini
What Commercial Zeolites Tell Us: Strategic Tuning for Real-World Applications	Sajjad Habibzadeh	14:30-14:55
Bridging Science and Industry: The Role of the Zeolite Conference	Kimia Kavan Andishe	14:55 – 15:05
	KTS group	15:05 – 15:15
	Nesar Kooh Mines Zeolite	15:15 – 15:25
	Continue the panel with all members 4 people	15:25 - 16
	Break, Poster, Exhibition	16– 17
	Final Ceremony	17 – 18
